Our Team

Where possible, link from treatments to the team, or simply repeat the information. Show pictures of the people, so visitors can connect with the therapists

If the questions were listed at the top, rather than in the right side menu then this might make the page easier to navigate. It would also be good to show a back to top link.

- What qualifications do your therapists have? Are they members of professional associations?
- Can I request a specific therapist?
- It's always a tricky question, but what clothes should I be leaving on or taking off for my treatment?
- Do you sell gift vouchers?
- Are your therapists registered as Health Fund providers/rebates?
- Do you charge cancellation or rescheduling fees?
- What should I do if I need to cancel or reschedule an appointment?
- What happens if I'm late to an appointment?
- What length of appointment should I book?
- How does your pricing structure work?
- Would a Relaxation or Remedial Treatment be best for me?
- What are the benefits of regular massage?
- How often should I be having a massage?

I like all the pricing on a single page and it would be good to direct people to the pricing page direct from the treatments area. Similarly, give then a link through to the bookings and enquiries page to give them 'what to do next' options.
